

Public Notice

Attention: Parents, Guardians and Community Members

SBRHS Talks is a new Somerset Berkley Regional High School family and community event created to showcase a variety of STEM careers to students. Selected presenters will be sharing insights into their occupation that may be of interest to prospective students thinking about that field. SBRHS Talks will be scheduled for evenings about 7pm during the 2018-2019 school year. We are now in the planning process and seeking local community members working within a STEM profession wishing to share their profession, skill, story or real life experiences in our Distance Learning Center or Performing Arts Center in a 20 minute talk. If you or someone you know is interested in presenting at SBRHS Talks, please send an email to SBRHSTalks@sbrregional.org with your name and a description of what your proposed talk will be about. We are compiling a list of interested SBRHS Talk presenters until June 1, 2018. Accepted presenters will be notified and a SBRHS Talks schedule made available to the public September 2018.

Thank you.
